“What’s Your Plan?” Petition

Senator Obama and Senator McCain:

I have followed your campaign and have watched the debates, but I still have not heard how either of you plan to reduce our dependence on foreign oil by 30 percent in the next 10 years.

The Pickens Plan - using wind and natural gas - will have an immediate impact on our oil imports by replacing the foreign fuel we currently use in our cars and trucks with domestic natural gas. Please let me know before election day that you will adopt the Pickens Plan or, if not, what YOUR plan is.
