### **About the Pickens Plan**

Unveiled on July 8, 2008 by T. Boone Pickens, the Pickens Plan is detailed solution for ending the United States' growing dependence on foreign oil, which costs the country \$700 billion per year. The plan calls for investing in power generation from domestic renewable resources such as wind and using our abundant supplies of natural gas as a transportation fuel, replacing more than one-third of our imported and saving more than \$230 billion a year.
